

4.152 P

4.152.1

- 2022 Tax Updates – State Income Tax Changes
 - Idaho – Effective 7/1/2022 [Read More](#)
- 2022 State Minimum Wage Changes
 - Hawaii – \$12.00 – Effective 10/1/2022
- Government Reporting > Federal Forms > 941 – Added an updated Form 941 for Q2 revisions in 2022

4.152.0

- Government Reporting > 1099 > Magnetic Media > Generate Transmission File – Added a flag to “Prevent this Work File from Being Deleted” similar to the W2 work files
- Government Reporting > Affordable Care Act > Original Transmission – Updated the process to use the XSD element definitions to validate field characters and lengths when generating Transmission Files. Also, added log details window to the screen to show adjusted elements being inserted into the files.
- Government Reporting > Affordable Care Act > View Transmissions – When a replacement file is generated for a rejected submission, it should always carry the receipt ID of the original transmission
- Government Reporting > Affordable Care Act > View Transmissions – Due to changes on how correction files are now created, if a set of files are required for just submission errors (company) without employee (1095C) errors, the application will no longer generate an error
- Optimum Backup Utility – Updated the “dbsecure” script and made the process work with databases that have a different collation setting than the native SQL Server
- Suite Web > Code Tables – Updated code tables that use a multiple selection list box so that removing one or a few items out of the “selected” box back into the “available” box does not cause all items to be removed
- Suite Web > Human Resources > New Hire > Complete New Hire – Updated the process to allow for no image file to be selected when making edits to the new hire info’s Employee screen
- UKG Conversions > Data Export – Updated the way the system uses the “Last Check Date” value when exporting Check History information
- UKG Conversions > Data Export – Updated the process so that an error is not thrown when no file is generated because there are no employee photos or documents to export and the “Export Documents/Photos” option is checked
